

Notice of Allowance dated 11-19-2003

Appl. No. 10/030,750

Amdt. dated December 1, 2003

Attorney Docket No. 1084-011957

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A high contrast projection, depixelating or the like screen comprising a primary matrix of a first, transparent material, a first quantity of discrete bodies of a second transparent material of a refractive index different from the primary matrix ~~material~~ material distributed in said primary matrix and a second quantity of discrete light absorbing or filtering bodies distributed in said primary matrix;

wherein the bodies of said second quantity each comprise a matrix of a transparent material incorporating light absorbing or opaque particles; and

wherein the transparent material or matrix material of said second quantity of discrete bodies has a different refractive index than from said primary matrix.

2. (Canceled)

3. (Previously Presented) The screen according to claim 1 wherein the bodies of said second quantity each comprise a transparent material incorporating a light filtering dye.

Claims 4-26 (Canceled)

27. (Currently Amended) A high contrast projection, depixelating or the like screen comprising a primary matrix of a first, transparent material, a first quantity of discrete bodies of a second transparent material of a refractive index different from the primary matrix ~~material~~ material distributed in said primary matrix and a second quantity of discrete light absorbing or filtering bodies distributed in said primary matrix;

wherein the bodies of said second quantity each comprise a matrix of a transparent material incorporating light absorbing or opaque particles;

wherein the transparent material or matrix material of said second quantity of discrete bodies has a different refractive index than from said primary matrix; and

Notice of Allowance dated 11-19-2003

Appl. No. 10/030,750

Amdt. dated December 1, 2003

Attorney Docket No. 1084-011957

wherein the materials of said first and second quantity have higher refractive indices than said primary matrix.

28. (Previously Presented) The screen according to claim 27 wherein the bodies of said second quantity each comprise a transparent material incorporating a light filtering dye.
